

Introduction to Programming with Java

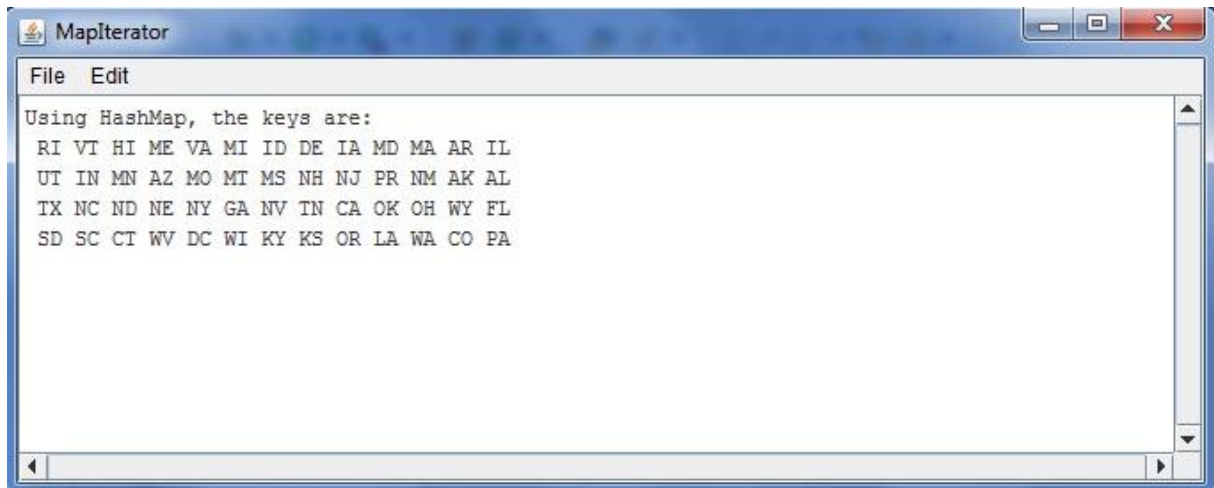

Class: [MapIterator.java](#)

Score: ★★ (Easy)

Description:

Implement a program which finds the name corresponding to a two-letter abbreviation of a state, using a Hash-map.

Sample Run:

```
Using HashMap, the keys are:  
RI VT HI ME VA MI ID DE IA MD MA AR IL  
UT IN MN AZ MO MT MS NH NJ PR NM AK AL  
TX NC ND NE NY GA NV TN CA OK OH WY FL  
SD SC CT WV DC WI KY KS OR LA WA CO PA
```
